Georgia: When I am asked to go to a dentist and have it removed, I should have it removed. I should have it removed. I should have it removed.

Brown Eyes. I think the wrinkles between your eyes are caused from squinting rather than from age. Yes, I am sure they can be removed by persistent massage with a good skin food.

Hazel. Here is an excellent tonic for oily hair: Two ounces of witch hazel, two ounces alcohol, one ounce distilled water, and forty grains resorcin. Apply every night, rubbing it thoroughly into the scalp and lifting the hair away from the scalp. Do this for two weeks.

Dr. Brady's Health Talks.
DEEP BREATHING EXERCISE.
Anæmia, dyspepsia, neuritis, victims of chronic constipation, too much stomachic, stick away at front—no imaginary liver trouble should learn how to breathe. In order to encourage them in a habit which is certain to do good and never harm, a list of exercises is described below.

How to Take the Exercises.
1. Stand erect in open air or before open window and without constricting clothing. 2. Breathe in and out through the nose. 3. Extend arms straight forward and take deep, slow breath through nose, keeping mouth closed. 4. At the same time throw the arms and head as far back as you can, holding the breath, and throw out the chest. Do it with a vim. Stretch yourself.

Relax. Arms at sides. Empty chest. Inhale deeply while drawing in the stomach, and draw out the chest after the fashion of the strong man in the physical culture books.

Why Modern Women's Hair is Getting Thin—By Mdm. Beaupre

Wigs, switches, curling tongs, artificial waving, singeing, etc., have combined to ruin the hair of many women, so there is decidedly an increase in baldness. But proper care will develop heavy, beautiful hair upon any head. In washing the hair do not use a makeshift which may remove more than the excess oil, leaving the hair dangerously dry, but use something which is made for shampooing only. A perfectly safe, economical, and regular shampoo, that makes the hair so fluffy it seems much heavier than it is, can be had by dissolving a teaspoonful of cantharides in water. This mixture cleanses gently, yet thoroughly, removing all dandruff, excess oil and dirt, giving to the scalp and hair the vigor that insures scalp health and hair beauty. Cantharides shampoos make the head feel good, make the hair look good, are very beneficial where hair is faded, dull or brittle, make the regular use of cantharides will greatly enrich the color of the hair and give a beautiful gloss and softness.—Adv.

Woman in All

HER loveliness will thrill women to-day just as she did yesterday. To-morrow the exposition closes as such, and the more important business of buying and selling begins.

There is much of satisfaction in owning or viewing or even feeling a thing that is good. All of us cannot have the worth your while. American-made and designed garments are as much favored as the French almost.

American designers are creating some wonderful things. American makers are on their mettle. "Made in America" is the new trade slogan. It is an interesting thing to note. Can America keep France from "coming back" as the arbiter of styles, when the war shall cease? If so these may be the last Parisian styles to be shown in America. But she has come back before in other turbulent times. Will she again? What do you think?
